A three minute video featuring Award-winning actress and activist Ruby Dee, nominated for an Academy Award in 2008, is currently premiering at [www.ourvoiceourcountry.org](http://www.ourvoiceourcountry.org)

In the video, Ms. Dee introduces the new and effective *Our Voice Our Country* system that educates, inspires and enables every citizen to continue the message of Paine's classic pamphlet *Common Sense* and the great tradition of American Popular Movements which followed; and to build new ones -- Online!

*Our Voice Our Country* makes it possible for every citizen in America to help identify just what our greatest problems are, and how best to solve them.

Soon, *Our Voice Our Country* will begin it's full process of presenting a monthly 'Topic' and three differing 'ProblemSolver Solutions' for consideration by the voting public. Their decision becomes a 'People's Resolution', providing authentic guidance from The People to key leaders in Washington with the clout to take action.

Ruby Dee is a legendary stage, screen and television actress who, with her husband Ossie Davis, has championed and participated as advocates for numerous social causes and movements. Ms. Dee's awards include: Screen Actor's Guild Lifetime Achievement, Kennedy Center Honors, a Grammy award and an Emmy award.

The innovative and accessible *Our Voice Our Country* concept has been developed with input and support from Walter Cronkite, Ruby Dee, Joanne Woodward, Yolanda King (Martin Luther King Jr.'s daughter), Jane Alexander and Judi Ann Mason; by leaders of national non-profits focused on good governance; by judges, students, seniors, soldiers, professors, business leaders, faith leaders, and by dozens of blue and white collar workers from every demographic and political party across America.

View posted 'Topics' (our greatest national problems, as identified by The People) at: <http://www.ourvoiceourcountry.org/participate/recommend-topic-rate.aspx>
